PROFESSIONAL SUMMARY

Full Stack Developer with proven expertise in designing and deploying scalable web and mobile applications. **Skilled in** MERN stack, Flutter, and database management, **with strong problem-solving abilities and a focus on building** user-centric solutions. **Experienced in** Agile development, performance optimization, and cloud integration, **with a track record of delivering** high-quality applications **in collaborative team environments**.

CORE TECHNICAL SKILLS

Programming Languages: C, Java, Dart

Web Development: HTML5, CSS3, JavaScript, React.js, MERN Stack

Mobile Development: Flutter

Databases: MongoDB, Supabase

Methodologies: Agile, Scrum.

EDUCATION

Bachelor of Information Technology

Dr. N.G.P Institute of Technology, Coimbatore (2022 – Present)

CGPA: 8.3 (Pursuing)

HSC – K.R.P. Matric Higher Secondary School, Sankari (2020)

Percentage: 89.16%

SSLC – K.R.P. Matric Higher Secondary School, Sankari (2019)

Percentage: 95.8%

PROJECTS

[Uzhavan Rentals Website \(2025\)](#)

GITHUB: <https://github.com/ravinnallasamy/agricultural-equipment-rental>

Developed a MERN-based agricultural equipment rental platform, enabling farmers to rent and lease machinery efficiently.

Implemented dual modules for users and providers, ensuring role-based access control and secure authentication.

Designed and deployed a responsive equipment catalog with advanced search and filtering features, improving user navigation by 40%.

Integrated MongoDB for scalable data storage and Axios for smooth client-server communication, reducing data fetch time by 25%.

Tumor Patients App (2025)

GITHUB:https://github.com/ravinnallasamy/brain_patient_management_app

Built a cross-platform healthcare management app using Flutter to assist tumor patients in post-treatment monitoring.

Delivered an accessible and user-friendly UI that simplified patient interactions, improving patient engagement by 35%.

Integrated secure patient profiles with personalized dashboards for symptom tracking, medication schedules, and doctor communication.

Collaborated with healthcare professionals to ensure medical accuracy and compliance with patient data standards.

Optimized performance for both Android and iOS platforms, achieving smooth response times under 1.5 seconds.

INTERNSHIP EXPERIENCE

IoT Intern – Krish-Tec, Coimbatore (2023)

Integrated IoT devices with cloud-based dashboards, enabling **real-time monitoring** of sensor data.

Configured communication protocols such as **MQTT and HTTP**, improving device-to-server efficiency by **20%**.

Tested and troubleshooted IoT workflows, reducing device error rates during pilot deployments by **15%**.

Collaborated with senior engineers to document workflows and optimize deployment pipelines.

IoT Protocols Intern – Innovate Engineering Products (2024)

Implemented real-time IoT protocols (**MQTT, CoAP**) to enhance **device-to-cloud communication** in industrial systems.

Developed Python scripts to automate protocol testing, saving the team **10+ hours per week** in manual validation.

Improved connectivity reliability by reducing latency by **25%**, ensuring stable streaming across multiple devices.

Contributed to integrating IoT systems into client applications, improving overall connectivity performance.

ACHIEVEMENTS

Academic Excellence: Secured **3rd rank out of 120 students** in the IT Department (2023).

Innovation Award: Winner of **Machine Learning Project Competition (2024)** for developing a **Multiple Disease Prediction Model (85%+ accuracy)**, evaluated across **3,000+ sample records**.

Hackathons: Participated in **24-hour inter-college hackathons**, building **2 functional prototypes under strict deadlines**; one solution ranked in the **top 5 among 30+ teams**.

Leadership Recognition: Organized **3 technical workshops and coding events** under the XEMAC Association, benefitting **150+ students**.

Community Impact: Coordinated **Blood Donation Camps and Clean India drives**, resulting in **100+ voluntary contributions**.

CERTIFICATIONS

Udemy Certifications

NPTEL Certifications (JAVA,C,IIoT)

Value-Added Course: Edge Computing in IoT
